

ECAI 2016 - 22nd European Conference on Artificial Intelligence
World Forum, The Hague, The Netherlands
29 August – 2 September 2016

Sponsorship & Exhibition

ECAI, European Conference on Artificial Intelligence, is Europe's premier venue for presenting scientific results in AI. In 2016, ECAI will take place at the World Forum in The Hague, from August 29 – September 2, with an expected participation of more than 700 delegates.

In line with the status of The Hague as the international city of peace and justice, ECAI 2016 has a special focus on "Artificial Intelligence and Human Values". The program will include presentations, debates and keynotes on this topic, with a session open to the general public being planned for the closing day.

The conference provides an ideal opportunity to enhance your Organisation's image and standing within the Artificial Intelligence communities. ECAI2016 will give players from business and industry a prominent and visible role in the programme through **tailor-made sponsorship partnerships**. These partnerships allow business leaders from a broad spectrum of sectors to interact directly with the different projects and the global research community, sharing valuable experience.

ECAI 2016 will deliver numerous benefits to sponsors depending on the desired level of visibility, priorities, and goals. Sponsoring ECAI 2016 will be a rewarding marketing, business development and partnership opportunity.

Sponsorship benefits

- Targeted audience of over 700 scientists, engineers, and students in the field of artificial intelligence from around the world.
- High visibility and a prime opportunity to present key achievements and strategic goals.
- Showcase for cutting-edge technology to an international audience in a dedicated exhibition area.
- Extensive networking opportunities at sessions and informal networking events.

AI@Work:

The opportunity to showcase activities and results, through

- Industrial Sessions
- Exhibition area
- Demonstration Sessions

Alckathon:

This AI-related hackathon event will generate innovative, high-profile solutions to your problem using the latest results from AI research.

Speed dates:

The opportunity to meet face-to-face with individuals and teams to discuss possible job and project collaborations.

Other opportunities:

Increase your exposure through targeted sponsorship of students, specific sessions, conference dinner, opening reception, delegate bags, coffee breaks, and many other.

All sponsors will receive ample acknowledgement in the conference website, printed materials, and mailings.
